XChange | B2B Dashboard

The Agent Dashboard (B2B) gives the b2b agent a platform to create and manage bookings directly for their clients without any dependency on your office staff. The system allows you to manage the subagents through a single window with advanced markups and pricing control.

One can now reach newer markets by giving subagent dashboard and white-label websites on the fly.

Product Features :

- Centrally manage your customers and subagents.
- Create B2B2B and B2B2C white labels for subagents and affiliates.
- Manage multiple markups and discount structures at various levels
- Manage payment and credit accounts of subagents.
- Manage promotional advertisement and notice board.
- Dual pool system for agents (credit and deposit)
- Manage agent's bookings and payments through extensive reporting system.
- Inbuilt GDS terminal for travel agent.
- Agent can create and manage multiple branches and multiple users.
- Agent's admin interface allows them to control their individual mark ups.
- Set credit limit and deposits.

The complete automatoon of the plateform is a real blessing. our agent stickiness has also increased. Love it !

Ujjwal Sehgal.
Director, SkyLord Travel, UK
